### Witness Statement 1:

I have been involved with the Cursillo Movement for the past 16 years. My Cursillo experience has made me realize God is calling me to a more mature level of Christianity and to do more to be a disciple and care for His church, here in this world. My mission is also to bring others to the understanding that we are all called. -Tim Lynch

#### Witness Statement 2:

I made my Cursillo back in 1985 and have never looked back. Cursillo opened my heart and mind to having a relationship with Jesus Christ, which prior to Cursillo, I didn't know was possible. I remember the couple who were parish coordinators at the time, and how they made us feel so welcome. Because of their effort, and the importance they placed on creating an atmosphere of belonging, we have been involved in the Cursillo Movement now for over thirty-two years. Our Lady of Mercy is well represented in Cursillo and we are happy to make our home with all of you. De Colores! -Sandi Matts
